Garage Rental, [REDACTED]

25X1A

1. Your memorandum dated 8 February 1949, forwarding the sample of a lease form for rental of garage space [REDACTED] has been reviewed.

2. In view of the provisions of RS 3648 I concur in your conclusion that the provisions for monthly payment in advance must be amended to provide for payment only after the space has been used for the period of a month.

3. There does not appear to be any prohibition against leasing the facility in question provided that adequate justification of the need for such facility is contained in the record. This justification is, of course, based on operational necessity.
